

CYNTHIA ROSE, L.Ac.
NYS Licensed Acupuncturist
294 West 92nd Street #2C
New York, NY 10025

January 7, 2005

To whom it may concern:

My name is Cynthia Rose. I am an acupuncturist licensed to practice in the state of New York. I have been in the field of Complementary and Alternative medicine for over 15 years, mostly in private practice. In addition to acupuncture I offer my patients several other energetic modalities including Neuromodulation Technique (NMT) as taught by Dr. Leslie Feinberg.

Through my experience I have found NMT to be a useful in treating patients, especially in complicated and long standing health conditions. For example, A 30 year old woman came to me with infertility problems. She had a large cyst in her ovary. The doctor felt that she would not be able to produce the number of follicles needed to have a good outcome with an IVF procedure. After 8 treatments with NMT the cyst went away and she was able to produce 15 follicles, 9 of which were of an excellent quality. Her doctor was quite pleased.

I have another female patient who is 25 years old and has suffered from Crohn's disease since she was 11. NMT was of great benefit to her. We have been able to reduce her symptoms almost 100% and greatly reduced the severity and number of flare-ups that she experiences. When she has a flare-up, we are able to get her back on track with 1 or 2 treatments.

Recently I began seeing a 31 year old male who has had asthma since he was 2, after having pneumonia. We have done 5 treatments using NMT along with acupuncture and he has seen a great improvement in his condition. There is less shortness of breath and tightness in his chest allowing him a much more active lifestyle. He is now speaking to his medical doctor about reducing his medications.

I use NMT exactly as it was taught to me at the seminar and use the current seminar manual. I have found that the system works as disclosed and in its present form is the most effective.

Yours truly,

Cynthia Rose
